

AZYAI

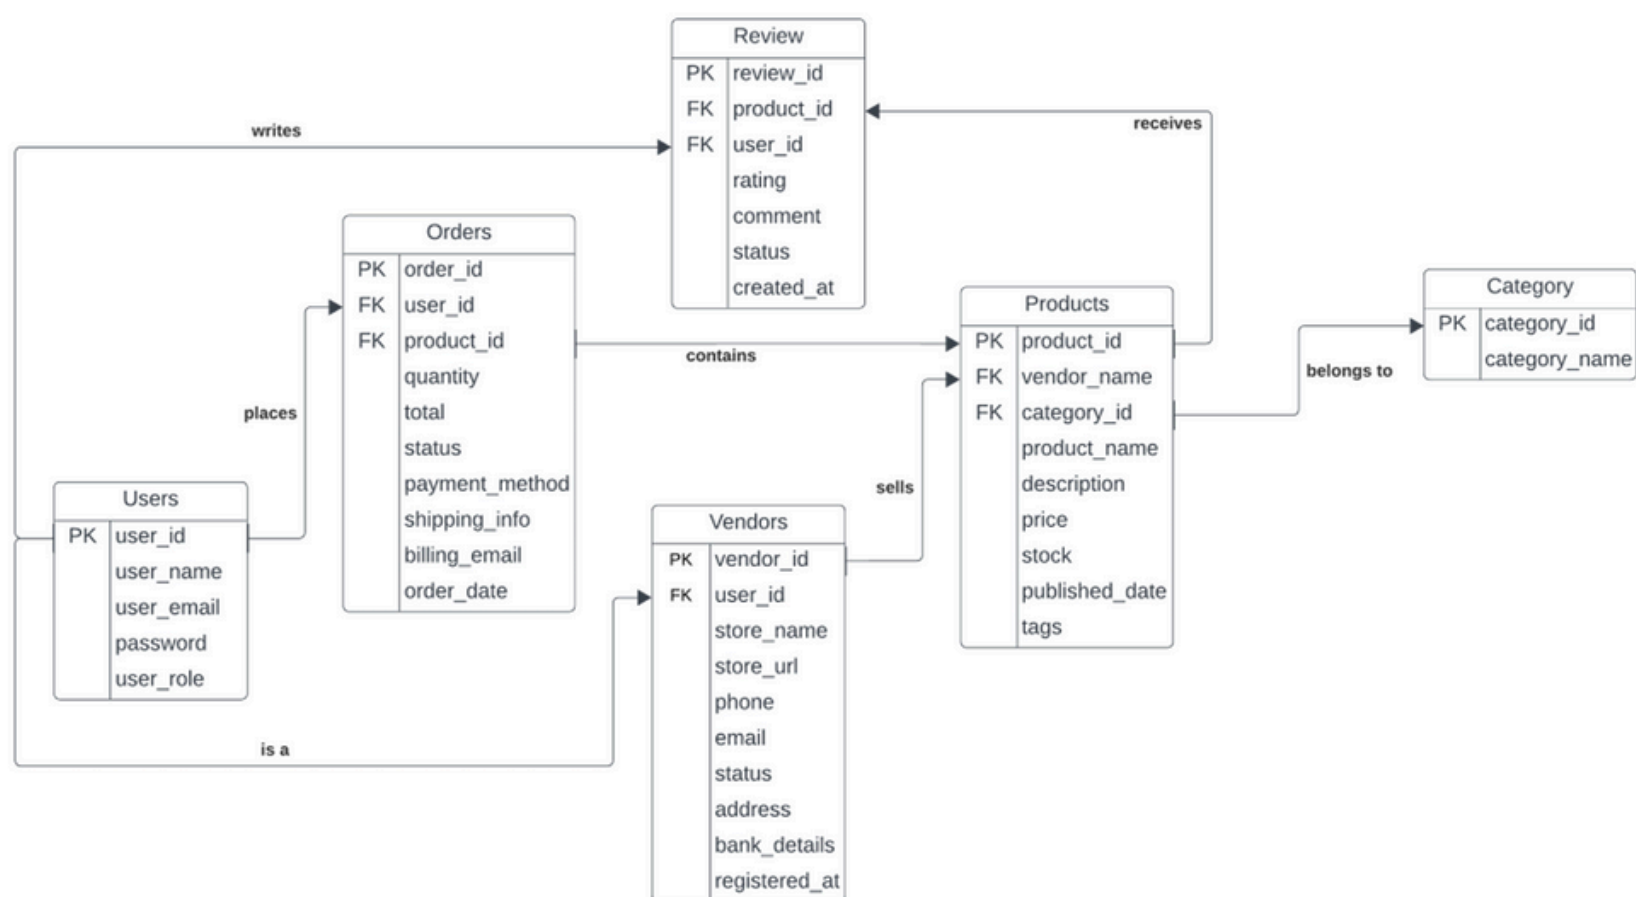

App Idea:

Azyai is a web application for browsing and managing traditional fashion items such as abayas and jalabiyas.

The app will allow users to:

- View a list of available items with images, sizes, colors, and prices
- View detailed information for a single item
- Vendors can add new items
- Edit and delete existing items

EDR:

How u will render:

Index	/cloth	GET
New	/cloth/new	GET
Create	/cloth	POST
Show	/cloth/:clothId	GET
Edit	/cloth/:clothId/edit	GET
Update	/cloth/:clothId	PUT
Delete	/cloth/:clothId	DELETE
